Genitourinary Grossing Guidelines

**Specimen Type:** ORCHIECTOMY (non-neoplastic)

**Gross Template:**
Labeled with the patient’s name (**), medical record number (**), designated “***”, and received [fresh/in formalin] is a(n) ***gram, *** x *** x *** cm [intact/disrupted] orchiectomy. The spermatic cord measures *** cm in length x *** cm in diameter. The tunica vaginalis is [present/absent].

Sectioning reveals [describe cut surface, fibrosis, necrosis, lesions]. Representative sections are submitted [describe cassette submission].

**Cassette Submission:** 5-6 cassettes
- Include sections of spermatic cord (including en face margin)
- Sample all lesions (periphery and center)
  - Sample lesion with relationship to rete testis, tunica albuginea, and epididymis
- If no lesions are identified – submit two cassettes of testicular parenchyma
