The Care Harbor health fair on November 15-17, 2019 in Downtown Los Angeles, provided medical, dental and eye care to thousands of uninsured, underinsured and underserved people who do not otherwise have access to care. For those who live without access to the care they need, this is a destination for help and hope.

The Department of Pathology and Laboratory Medicine collectively gave back by gathering volunteers to provide the following services: Pap smear interpretations, Pregnancy screens, Urine Dipstick, and Hemoglobin results. Thank you to the following volunteers who were at the event: Lavita Boyd, HopeAngel Mayberry, Marie Navarro, Joo Hee Sohn, Luzviminda Cutidioc-Padilla, Sonia Valadez, Diana Ciobanu, Jenna Faynov, Janet Karschamroon, Candie Bautista, Ginny Javier and Rekha Govind.

Since 2013, we have proudly partnered with many other UCLA Health departments to provide care at this important program and look forward to participating every year.
