Dr. Romney M. Humphries
Asst. Professor, Director of Operations, Clinical Microbiology
UCLA David Geffen School of Medicine
11633 San Vicente Boulevard
Los Angeles, CA 90049

Dear Dr. Humphries:

This letter is to inform you that Janet Hindler has recently completed outstanding service as Chairholder of the Document Development Committee on *Analysis and Presentation of Cumulative Antimicrobial Susceptibility Test Data; Approved Guideline – 4th Edition (M39-A4)*. Janet is a valued colleague and friend who has made a significant contribution to the Clinical and Laboratory Standards Institute (CLSI) process.

Within the CLSI community, we have recognized Janet's service to the voluntary consensus standards effort and to the medical-testing and healthcare-services fields. At the same time, we feel it's important that such efforts do not go unnoticed by her superiors at UCLA Medical Center.

As CLSI President, I ask that you present the enclosed award to Janet at a convenient time. I'm sure your personal attention to this award will make it all the more significant to her.

I also want to take this opportunity to express our appreciation to the UCLA Medical Center for its contributions to voluntary consensus and quality health care through Janet's volunteer services. Individual healthcare institutions and laboratories, professional and clinical societies, manufacturers and suppliers, and regulatory and scientific government agencies cooperate voluntarily with CLSI to develop, evaluate, and implement consensus standards that support the delivery of quality patient care. Through Janet's volunteer services, the UCLA Medical Center has actively supported these important standards-development efforts.

Thank you in advance for granting this favor. We look forward to the continuing commitment and the active participation of your organization in CLSI activities.

Sincerely,

Greg Miller, PhD
President
encl.
